Matrix Formation and Bottle Packing Machine

Automatic Matrix Formation and Bag Packing Machine is the perfect labor-saving component to meet the demands of high-speed Packing Lines. Machine is designed to form a matrix of containers (i.e. 8x8; 6x8, etc) and push the complete matrix in to the bag for packing. No longer are employees required to manually place the bottles one by one in the bag with proper arrangement – an otherwise tedious and time consuming task.

Why Automatic Matrix Formation and Bag Packing Machine?

- **Good Speed** and Fully Automated
- **Matrix size** can be as per your requirement
- **No changeover parts** at bottle changing which provides minimum time for bottle changeover.
- **Increases efficiency** and **productivity** for production lines
- It can workout for **any shape** like round, oval, square, etc. It is enable for **unsymmetrical shape** of bottles also.
- Contact parts are **resistant to flaking, chipping, scuffing so will not cause any cosmetic damage** to containers
- **Saves money** through efficient use of personnel
- **Minimal operator training** required
- **Fast adjustment** reduce downtime and maximize uptime
- Built to be **reliable, trouble-free and dependable** for years of operation
- INDIAN made-easy access **to spare parts** and **service assistance**
- User **friendly & maintenance less** design.
- **Low noise level** at higher speed.
