

## AUTO SCREWING MACHINE

Automatic OR Semi-automatic screwing system is the perfect labor-saving component to meet the demands of high-speed assembly lines in a wide range of industries. It is designed to provide a screwing solution for many applications.

No longer are employees required to manually screw parts with the help of screw-driver.

It will be time saving for more than one screw at a time with the same torque all time.

### Why Auto screwing system?

- **High Speed** and Fully Automated
- **Increases efficiency** and **productivity** for assembly lines
- **Saves money** through efficient use of personnel
- **Minimal operator training** required
- Designed to accommodate **various shapes and sizes**
- Built to be **reliable, trouble-free and dependable** for years of operation
- **INDIAN** made-easy access to **spare parts** and **service assistance**
