

Bottle Orientation Machine

Eminence Engineering made Bottle Orientation Machine is used in high-speed bottle Orientation by twisting of bottles with 100% accuracy. When the neck of the bottle is unsymmetrical, Bottle Orientation Machine will twist the bottles and place it in correct orientation with very high speed. Normally used in Pharma bottles, FMCG, hair oil, lube oil, cosmetic containers can be run in Bottle Orientation Machine. PET, HDPE, LDPE,

PC, etc can be run without any cosmetic damage. Bottle Orientation Machine is enable for **speed up to 300 Bottles Per Minute**. Bottle Orientation Machine can be:

1. Sensor or Camera Based Machine
2. Mechanical Based Machine

Why Orientation Machine?

- **Good Speed** accurate and Fully Automated
- **No changeover parts** at bottle changing which provides minimum time for bottle change
- **Increases efficiency and productivity** for production lines
- It can workout for **any shape** like round, oval, square, etc. It is enable for **unsymmetrical shape** of bottles.
- Contact parts are **resistant to flaking, chipping, scuffing so will not cause any cosmetic damage** to containers
- **Saves money** through efficient use of personnel
- **Minimal operator training** required
- **Fast adjustment** reduce downtime and maximize uptime
- Built to be **reliable, trouble-free and dependable** for years of operation
- INDIAN made-easy access to **spare parts and service assistance**
- User **friendly & maintenance less** design.
- **Low noise level** at higher speed.
