Wire Mesh Conveyor

Our wire mesh conveyor belts and chain driven conveyor belts are used worldwide in industries such as heat treating, forging, foundry, food processing, snack food, baking, ceramics, glass, automotive and more.

Eminence make wire mesh conveyor is tight wire mesh for flexibility and conveying small parts, special smooth surface belts for easy accurate transfer, wire belts with large openings for easy flow of air or water and for simplified cleaning of your product.

Conveyor Belts are widely used in forging, food processing, dairy, bottling plant, engineering industries, oil drops, oil spray, cooling, heat treatment, baking etc. We produce wire conveyor belts as per customer specifications.

Applications include :

- Bottle washing and fireplace curtains
- Carrying small items and delicate or polished surfaces which could be damaged or marked by a more open mesh. Often used in furnace for brazing.
- Cooling of bread rolls and washing of vegetables.
- colliery lift safety curtains and collapsible curtains for lifting
